My training journey in a nutshell

After obtaining a diploma and an internship as a surveyor, I embarked on a course of study at the Academy of Arts and New Technologies for the title of Interior & Product Designer.

Then I specialized in graphic and web design following training courses, continuing my journey in the digital product design and UX sector, until today.

During my work experience, in addition to operational skills in research, strategy, UX, UI and business, I have also developed skills about organization, planning, sales and human resource management, and also mentoring / teaching skills.
